

The Association for Preservation Technology International
Association internationale pour la préservation et ses techniques

INDUCTS

FRANK S. WELSH

INTO THE APT COLLEGE OF FELLOWS

In recognition of commitment to APT as award winning writer and technical researcher who has shared and published articles and presented at conferences his knowledge of analyzing, understanding and presenting historic building materials, construction, and operations that are necessary for the successful management and curation of historic buildings where the goal is planning for excellence in preservation practices, and with recognized mentoring of the profession using a very altruistic approach which has allowed the field of historic preservation to grow its knowledge base and truly embody the spirit of APT, and to develop and promote the mission of APT.

On this 5th day of November, 2009
Los Angeles, California

A handwritten signature in black ink, appearing to read 'Brian S. Robinson', is written over the printed name below.

Brian S. Robinson, President

APT COLLEGE OF FELLOWS 2009
